

FiberEdge®

Protection & Performance

High energy performance feed that helps maintain gastric health in horses

- ✓ A complete feed balanced with a vitamin and mineral supplement
- ✓ Fresh cut lucerne and freshly crushed oats with Xanotylde®
- ✓ High levels of digestible energy
- ✓ Superior protein for performance and muscle recovery

Packed in a special 25kg/55lb plastic package sealed airtight to guarantee freshness

Typical Analysis (Dry Matter Basis)

Crude Protein.....	16.3%
Crude Fibre.....	22.7%
Crude Fat.....	4.1%
Calcium.....	13.4 g/kg
Phosphorus.....	5.6 g/kg
Vitamin E.....	100 mg/kg
Selenium.....	0.04 mg/kg
Lysine.....	6.3 g/kg
Methionine.....	2.0 g/kg
Cysteine.....	2.6 g/kg
Nutritional Juices (as fed).....	4.5%

Digestible Energy (DE)
11.9 MJ/kg

FiberEdge® is a complete feed mixed in the correct proportion of fresh cut lucerne and freshly crushed oats balanced with a vitamin and mineral supplement. FiberEdge® provides superior levels of digestible protein and a full range of amino acids that helps maintain muscle repair and recovery after strenuous exercise.

Specifically formulated, FiberEdge® provides both rapid and sustained release energy for horses in the highest levels of training and competition, whilst also maintaining gastric health.

With FiberEdge® gastric health can be managed and performance horses can continue their competitive campaigns without their potential being undermined by poor gastric function.

Ingredient Composition

Lucerne (alfalfa), Xanotylde®, crushed oats, cured molasses (4%) and a vitamin and mineral supplement.

Feeding Recommendations

FiberEdge® is a complete feed mixed in the correct proportions of fibre and grain. Other energy sources may be added to the ration if necessary to meet higher nutrient demands. Always feed by weight and not volume and use scales to ensure accurate quantities. Always provide free access to fresh, clean water.

Daily Feeding Guide (as fed)

Refer to the following table for recommended feeding rates. These amounts will help correct the correct forage to grain ration and provide a base of quality nutrition. Forage should make up at least 50% of the horses daily feed intake. Feeding levels are calculated to provide at least half of the daily energy requirements of the horse.

Used at the following recommended daily feeding rates, FiberEdge® will help ensure optimum nutrition, general health, and improved top-line / condition in your horse.

Body weight	Resting	Light Work	Moderate Work	Heavy Work	Weanlings	Yearlings	Breeding Stallions	Lactating Broodmares
Feeding rate per 100 kg BW	1.05 kg	1.25 kg	1.50 kg	1.70 kg	2.55 kg	1.85 kg	1.40 kg	2.05 kg
500kg	5.25 kg	6.25 kg	7.50 kg	8.50 kg	Provide at least 2.55kg FiberEdge® per 100kg BW	Provide at least 1.85kg FiberEdge® per 100kg BW	7.00 kg	10.25 kg
600kg	6.30 kg	7.50 kg	9.00 kg	10.20 kg			8.40 kg	12.30 kg
Daily Energy intake (%)**	50%	50%	50%	50%	50%	50%	50%	50%
